

## Dr. Eboni January, MD, FACOG

**Board-Certified Obstetrician/Gynecologist | Author | Philanthropist | Public Health Advocate | Health and Success Coach**

### About Dr. Eboni January

Dr. Eboni January is a board-certified OB-GYN with over a decade of experience in medicine. Renowned for her holistic approach, she blends traditional medical practices with innovative wellness strategies. Dr. January's diverse exposure to different walks of life and her medical licensure in 14 states equip her with a unique perspective and broad expertise. Her dedication to maternal health extends beyond her clinical practice to her roles as an author, philanthropist, public health advocate, and health and success coach.

Dr. January is a published author and a dedicated public health advocate. Her work focuses on improving maternal health outcomes and empowering women through education, programs, and support. She supports philanthropic efforts to make maternal health services accessible to underserved communities.

**"Your health and your baby's health are intertwined. Stay vigilant and proactive during your pregnancy journey."**
