Our recent experience with Jennings Social Media & Martech has been exceptional. I recently launched an industrial automation company and I knew that I needed to focus on building name recognition. Valerie and her team knew exactly what we needed to do. They brought priceless insight into the marketing and social media world. I think the most impressive aspect of dealing with JSMM is their ability to get me thinking in a new way. I don't know if it is the questions they ask, the experience they bring to the table, or the approach to marketing, but it has allowed me to rethink some of the areas of our industry that I have struggled to put into words over the years. This allowed me to finally put into words our competitive strengths and differentiators. I know it can be hard to put the value of marketing, but I can say working with JSMM has been time and money well spent.
