## PEOPLE ARE TALKING...

“Christine is the kind of speaker where you leave with actionable insights and strategies you can use immediately. I know every attendee was logging on to their LinkedIn page to apply her ideas and generate more profile views.”

Diana Paradis, Colgate-Palmolive

“It was evident that Christine spent the time to research and deeply understand the audience. The workshops she put together were extremely valuable to the employees in the program. She has a great command of a room whether digital or in person.”

Lindsay Shay, Brand Networks/Walmart

“As an event organizer for Social Media Day Wichita, it was very wonderful and easy to work with Christine. She has fantastic communication skills and she was highly-responsive building up to our event. She brought so much positivity, enthusiasm and knowledge to our audience, and was a phenomenal asset to attendees and the day itself.”

Jennifer Cole Larsen, Digital Wichita

“Christine is a true professional who not only delivered an excellent presentation but also took the time to connect with attendees and answer their questions. I highly recommend Christine as a speaker and personal branding expert.”

Katie Brinkley, Social Profit Lab Summit
