

ABOUT DR. JACOPO

Dr. Jacopo Iasiello's journey is nothing short of remarkable. From a young age, he was captivated by how entrepreneurs meet needs and build success. By age 11, Jacopo was devouring books by real estate moguls and business legends, laying the groundwork for his extraordinary career.

Though he was on the path to becoming a professional soccer player, a devastating injury at 17 shifted his trajectory. Unwilling to let this setback define him, Jacopo pivoted towards entrepreneurship with unrelenting determination.

At just 18, he launched a thriving jewelry chain in Naples, Italy, scaling his business to millions in revenue and exploring Africa for gold and diamonds. By 22, Jacopo had transitioned into real estate, where he quickly became known for his uncanny ability to secure high-stakes deals through auctions and short sales.

But Jacopo's journey wasn't without its trials. A major crisis forced him to sell his businesses and part ways with his team, leaving him at a crossroads. Yet, he refused to succumb to defeat. Instead, he channeled his resilience into building a new future, raising funds, and earning the trust of influential investors.

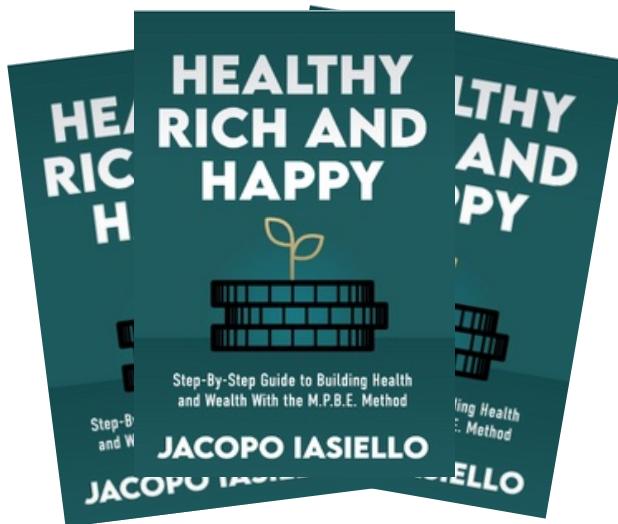

With a Ph.D. in International Business Management and a groundbreaking thesis titled “Successful Entrepreneurs,” Jacopo further sharpened his expertise with world-renowned trainers like Tony Robbins and Robert Kiyosaki. He founded Miami Italy Int. Brokers Rlty. and later Luxury and Wealth Group, specializing in luxury properties.

Upon arriving in Florida, Jacopo’s entrepreneurial spirit soared. He executed over 350 ++ real estate flips, crafted a robust property portfolio, and achieved financial freedom. Now, his mission is to spread the transformative power of his M.P.B.E. method, which has not only revolutionized his life but also has the potential to ignite change for others.

Raised in a loving family, Jacopo’s early experiences taught him the true essence of resilience and purpose. His story is a testament to turning adversity into triumph and inspiring others to reach for their own extraordinary potential.
