Empathy: The Key to Values-Driven Leadership

Roi understands firsthand how illness can disconnect us from humanity. By developing profound empathy during his own health challenges, he found renewed purpose leading with compassion.

Now a sought-after speaker, Roi shares how cultivating empathy allows visionary leaders to connect deeply with people, inspire purpose and drive sustainable change.

Workshops on Empathetic Leadership

Roi offers workshops teaching leaders how to strengthen active listening, understand others' lived experiences and care for both physical and emotional needs. Participants learn to bring empathy to both strategic planning and day-to-day operations.

Keynotes on Empathetic Leadership

Roi delivers thought-provoking keynotes worldwide inspiring audiences to cultivate empathy within leadership. He shares practical strategies and real-world examples of how empathetic leadership strengthens workforce engagement, innovation and organizational resilience.

Proven Results

As a Chief Patient Officer, Roi helped organizations like Novartis transform models centered on care, values and trust. He proves empathy is not just nice - it's a framework for resilient, quality-focused businesses addressing people's needs.
