

CEO & Founder of Mergemega

Peter Mkhize

## Professional Background

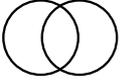

Peter specializes in helping businesses by implementing online sales and marketing strategies, software, and content that stimulate revenue and traction growth.

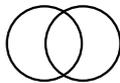

He identifies himself as a software developer and a digital sales specialist that founded Mergemega.com. His company has been named one of the best marketplaces and it continues to scale to multiple countries across the world.

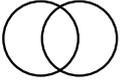

Peter is very customer-centric. His purpose-driven obligations include developing and designing digital platforms that consumers love, and understanding consumers through online engagement and market research while increasing conversion rate.

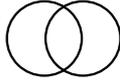

At just the age of 22, he's a visionary that's playing his part in growing the new world for game changers using Artificial Intelligent technologies.

## Achievements

 His company ( Mergemega) was listed as one of the best marketplaces

 Partnered with 163 consultants through mergemega.com

 In less than a year Mergemega is available in more than 8 markets across the world.

 Designed and developed a AI powered resume/CV building software in just 3 days.
