Target Areas For Speaking

- 1) **Story Telling** – 3 positive stories that encourage attendees to achieve their best at their gifts and talents. The emphasis is on listening, communicating, and obtaining their desired goals. Attendees also learn to be thankful for their accomplishments and believe in a team effort to thrive.
- 2) **Motivational** - Once the goal is reached, individuals are just getting started and realize that it was a team effort. Effective communication keeps productivity moving forward and identifies individuals' strong points. Roles are realized and adhered to effectively. There will always be challenges to overcome, but that is what builds fortitude.
- 3) **Emotional Intelligence** – The pandemic forced a complete career reinvention. From professional entertainer to School Teacher K – 12/Keynote Speaker required an emotional overhaul. The Universe smiled at me and I was ready to grab the opportunity. I learned that working with a diverse population of students has taught me patience, compassion, problem-solving, wisdom, and reality. Each event attendee will learn how to evolve with changing environments and maximize their potential in any new arena.

Lee Rugless is a keynote speaker, composer, singer, and songwriter. He has performed as a keynote speaker at schools, churches, nonprofit organizations, and corporate events.
