

MICHELLE MCGRANN

International Speaker & Trainer on Leadership
and Communication, Non-Profit Leader

Nearly 13 years ago, I discovered something powerful: the right leadership development at the right moment can completely change someone's trajectory.

Since then, I've designed and facilitated programs that help leaders unlock their potential. More importantly, I've also helped teach them how to unlock it in others. My work has taken me from university classrooms to corporate boardrooms, from startup teams to Fortune 500 executives - reaching audiences across industries and cultures.

My approach combines adult learning theory, behavioral science, and real-world facilitation expertise to create experiences that don't just inform, but transform. Because what the world needs is leaders who are both skilled and authentically human.
