Speaking Topics

Less is More

As brands and consumers develop a deeper awareness of the importance of protecting their data, the idea of sharing less is becoming a more prudent, preferential, and effective approach to governance.

Gaps are Opportunities

Our Gaps are Opportunities strategy is rooted in a meditation on the importance of listening and observation and proves in short order wherever we look, especially in the weakest areas of a business, that there is always room for optimization.

Relationships Matter

Relationship building is, has always been and will always be, the most seminal skill and strategy we should practice and master.
