## What You'll Hear

Jill's speech topics are both poignant and inspiring; they cover her survivor stories intertwined with the challenges she overcame while being a woman entrepreneur.

Her thought provoking opinions will motivate and change the way your audience approaches their lives, as her message of being a strong woman is met with self deprecating humor. After chasing her own empowerment, Jill guides others into claiming theirs.

Her message that "Positivity Is Overrated" will send your audience away with a clarity in perspective and a refreshed resilience to avoid toxic positivity.

Her upcoming book *That Little Blue Circle* addresses her time as a wedding planner, breast cancer and domestic violence survivor.
