## A Brighter Future & Better Policies Based on Science

From the only independent scientist who has read 3000 scientific articles to expose the shocking truth...

- Are we really drowning in plastic?
- Do plastics dominate waste?
- Are other materials truly greener?
- What about the whales, turtles & birds?
- Microplastics – is there a credible threat?
- Do plastic take forever to degrade?
- And much more...

## Who lied to us and why?!

- Sound information for better decisions
- Wiser policies for a brighter future
- Exposing the greedy racketeers
- Revealing media deceit
