

Oliver Hauss

Healthcare Presentation Evangelist, Speaker and Trainer

Oliver Hauss, PhD, is a chemist and molecular biologist with almost 20 years experience in the healthcare industry as a medical/scientific speaker, trainer and consultant. Oliver works with individuals and teams to empower them to speed up the bench-to-bedside transfer of medical discoveries and technologies by making complex presentations clear, concise, and compelling.

CLIENT FEEDBACK

I have attended few of Oliver's sessions at our conferences and always found it outstanding... lot to learn with the help of practical examples. Oliver is a perfect coach and trainer. Oliver's sessions are very engaging and give great insights. In my experience, Oliver has proven himself to be a very capable member of our conference's Keynote speakers panel by giving inspiring talks with great experience.

Sachin Sharma, MOB, KP-Morgan Group

A three-stage online training with Dr. Oliver Hauss for myself and my team has increased the quality of our presentations significantly. We understood better how to target our message and give our presentation a storyline to capture our audience for our topic until the end. Many thanks for that! I can only recommend it.
