*"Dr. January has gone above and beyond to help me. Who would've ever thought that seeking help for the ACT would have introduced me to someone I now call my mentor and look up to. I am truly blessed to have her, and her motivational words will always help my ambition never to be complacent." X.P.*

## Speaking Topics

### Goals and Time Management

(Navigating Failure)

Goals should have a start date, not an end date. This talk will cover the basics of time management and its application to student life and goals. I will cover what it means to have good organizational skills and a strategic plan to accomplish goals. Students will learn to set and achieve goals efficiently and effectively. Most importantly, I will give tips and techniques that I used to navigate adversity and failure to achieve success!

### Resume Building (Full Ride Scholarships)

This talk isn't about proper indentation or spacing and making sure that no two students are the same. Students will learn how to stand out on paper to increase college and grad school acceptances. Good grades are one thing; customized experiences are the things that separate the good from the great and get FULL ride Scholarships. I show students how I received full-ride scholarships for College and Medical School with average test scores.

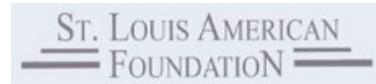

### Bloom's Taxonomy (Study and Exam Skills)

The talk will cover Bloom's Taxonomy, a framework for understanding the depth at which knowledge can be obtained and how it can be used to improve student study and, subsequently, exam scores. Students will learn the foundation of learning and how to use it for intentional learning, study, then execution. This workshop will give critical testing and study strategies that turn C's to A's and college denials into acceptances!

## Bio

I'm an award-winning board-certified physician and surgeon, medical director, business consultant, author, and educational mentor from East St. Louis. As a coach for over 15 years, my passion is coaching parents and students in academics the way athletes are coached in sports. As a young certified OB/GYN and philanthropist, I already received a Lifetime Achievement Award from President Obama in 2016. In 2017 was awarded "Top-30 Leaders in their Thirties" and the "Legacy Award." I've written a book released in 2018, Educational Athlete: Why Every Successful Student Needs a Coach, which continues to increase awareness by providing insight, strategy and inspiration on success.
