

Entrepreneur | Author | Speaker

Suhein is well known for her humorous and animated presentations. She is adept at conducting small workshops as well as entertaining large audiences with her educational business keynotes and charity emcee fundraising skills.

Prepare to laugh, learn, cry and want more of her bullet sniping, bomb-dodging, terrorist romancing, FBI chasing, Gandhi inspiring true-to-life stories!

Business:

After 12 years in Corporate America, Suhein launched several businesses and brands to mass retail & global distribution. She shares her epic failures and triumphs with new entrepreneurs to help guide their way to success faster and more humanely!

Cultural Diversity:

As a Circassian Exile / Syrian Refugee / Muslim American, Suhein brings a unique perspective to the landscape of stereotypes. Shattering misconceptions into funny little digestible pieces makes for a great seminar to any work culture to help reshape global sensitivities.

Youth:

A fish does not know it's in water, or even hot water. Suhein had no idea growing up in gang-infested neighborhoods was not normal. She learned the universal language of gangs and terrorists early on and it helped her gain "street credo" in her corporate career and to now connect and inspire today's bullied and troubled youth to rise above it all.
