

Discover your true tone for meaningful impact.

As a tone master I empower & build highly engaged teams by adding inspiration and new talent to your organization.

It all starts with silence. Slowing down, contemplating, discovering space and finding your tone in it. Yours, the real one. I like to move people into silence, to disconnect from their surroundings and just experience. What really matters? What matters to you? How do you connect with yourself?

"I look back at the management summit with a very good feeling and have received many positive reactions to your performance. It has touched people and made them think."

Maarten Camps
Chairman of the board, UWV

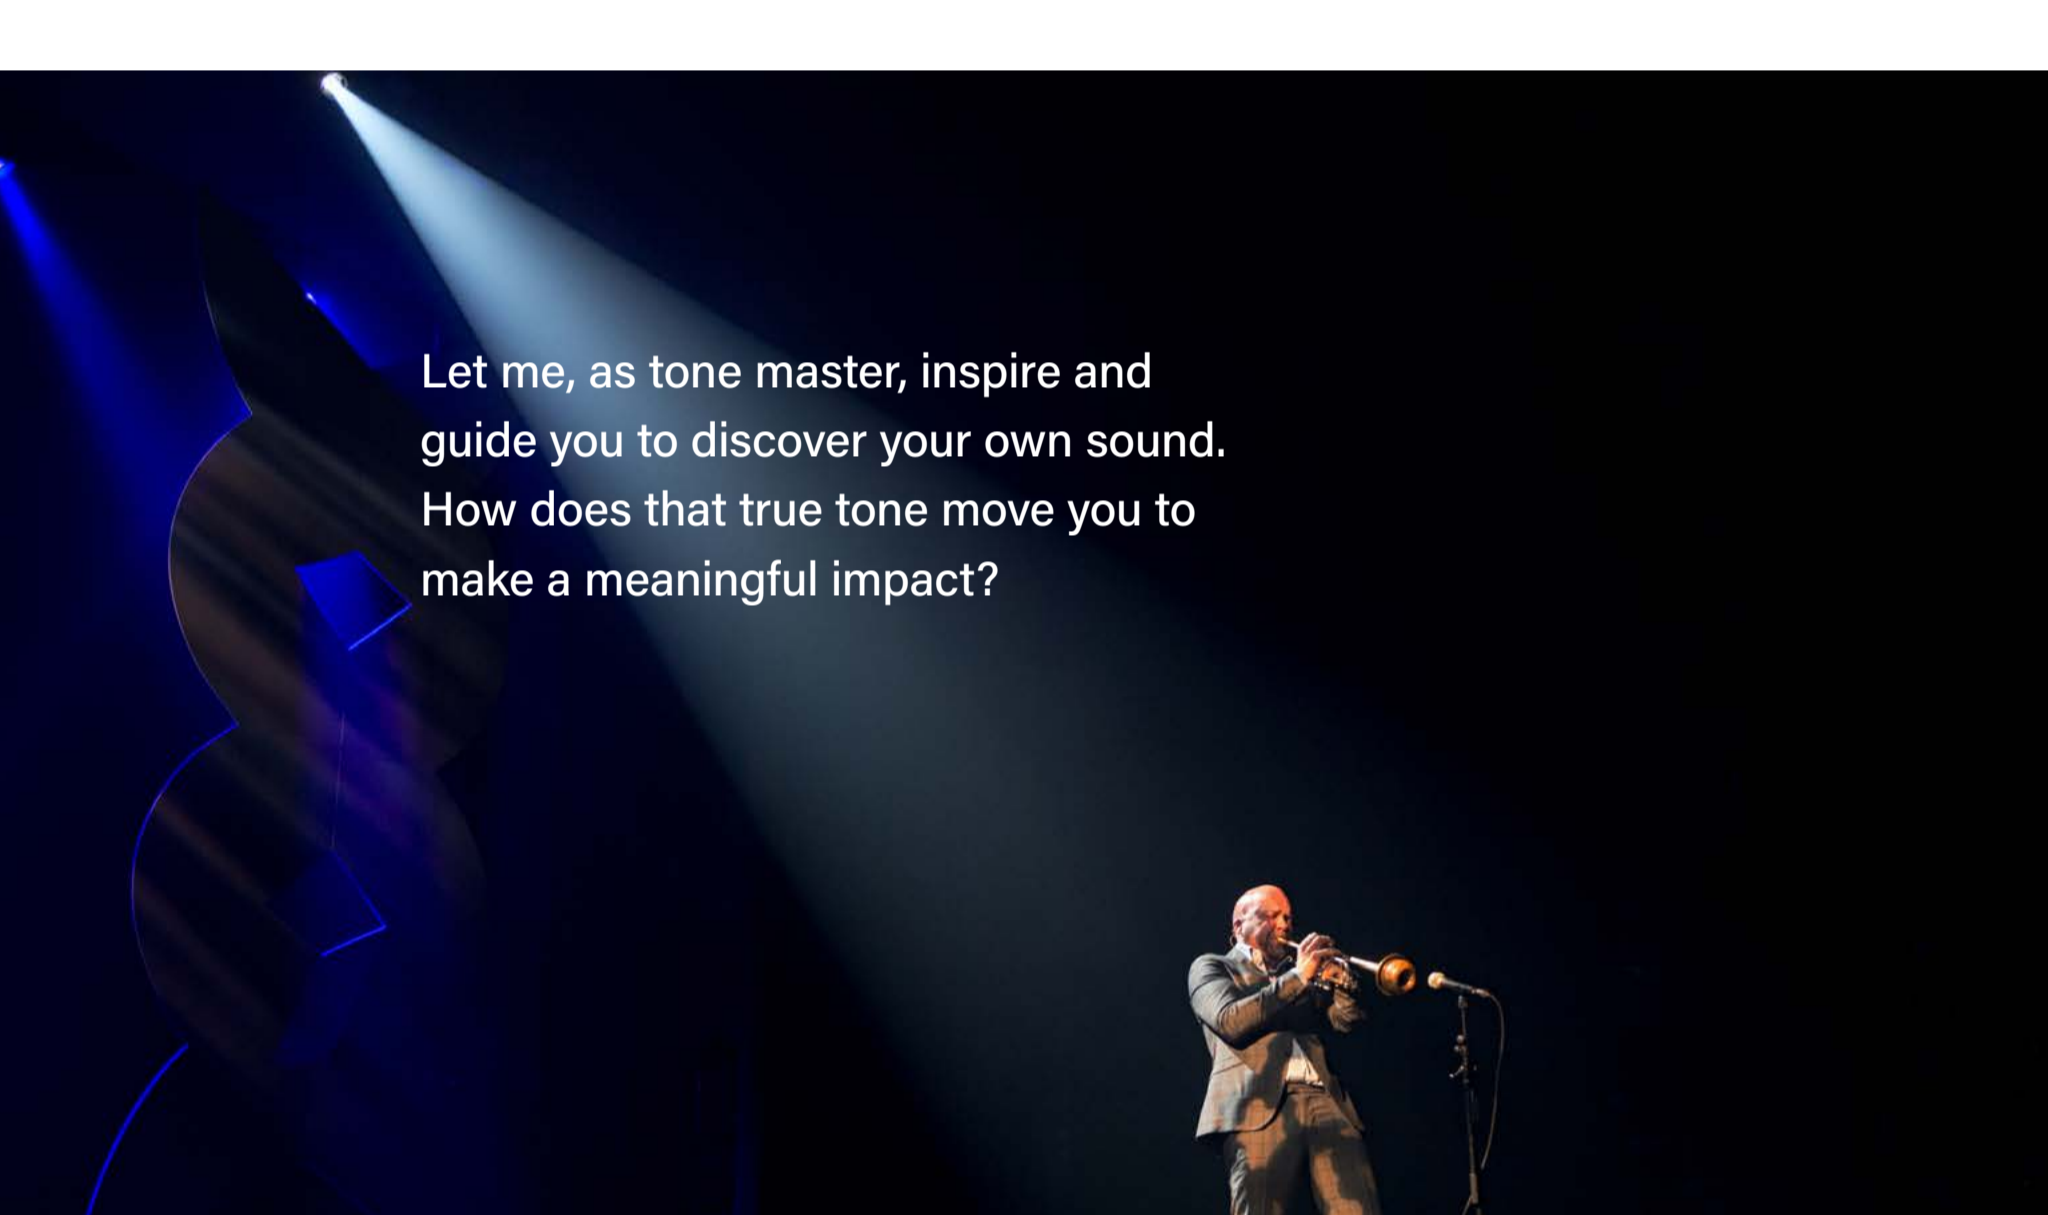

Everything I do originates from my life experience, boundless energy and mastery as a solo trumpet player.

(Rotterdam Philharmonic Orchestra / Netherlands Wind Ensemble, among others).

Beyond the instrument, beyond the musician, lies silence. My starting point. The stage is now yours. The place for listening and tuning in, the place to start something new. To let a new sound emerge, from silence and the created room thereto.

"André contributes to an important essence in life. By finding stillness and the balance of being. He inspires, just as in his music, he touches you. An open invitation to look at matters in a different way, with music and reflection. An important essence, in the ever changing world we live in as human beings."

Mai Elmar
Chairman VNO-NCW Rotterdam & Rijnmond region

Let me, as tone master, inspire and guide you to discover your own sound.

How does that true tone move you to make a meaningful impact?

Discover your master tone and tune in to your internal compass with me. Distinguish between meaningful and senseless. Connect to your essence and become a master of your being and on top of your game.

Keynotes on themes such as resilience, passion, self-reliance, innovation, high performance and leadership. I bring my story and make it resound with my trumpet. Accurate tones that touch listeners so deeply that they open up and want to share their own stories. A new sound that flows.

"I really learned something from your keynote for PWC on Vlieland. Namely, that you should not fill the space 100% because there should also be room for the other person. I liked that. And very apt. I am sure we will be in touch in the years to come, I thought your performance then was top-notch."

Agnes Koops-Aukes
Chairman of the board PWC Netherlands

Would you like to make a difference with me for your audience, your team, your guests?

Inquire about the possibilities, share your ideas with me, and together we will create a customized program. Impact guaranteed.

Best regards,
