Aditya Guthey

CERTIFIED ICF PCC COACH

WHO WE ARE

CLIENT REVIEWS

Aditya has leveled me up! Not only have I been able to get that well deserved promotion through the great work we have done, I went from managing 40 people to over 200 people. I can see my vision. I can see my brand. I can truly chase the goals that are most important to me!

Vijay Khatri
Sr Engineering Leader,
Manufacturing company

★★★★★

In the short period of time I spent with Aditya, I was able to learn tools to help gain mental clarity, uncover the art of leading others, listen to my own wisdom, and build the foundation to lean on others for support. It was an eye-opening and transformative experience that eventually led to my promotion to a higher-level leadership role.

Addie Watson
Female Leader in Tech

★★★★★

During the six months in which I was coached by Aditya, he helped advance my career by improving my public speaking skills, an area where I had been stuck for years. He is highly professional and compassionate, and his unique background in tech leadership provides him with special perspectives and insights that I believe significantly enhanced my presentation skills.

Nils Erik Pedersen
Digital Technology Innovation Leader

★★★★★

ABOUT ADITYA

Aditya Guthey is a certified ICF PCC coach with over 1500 coaching hours, assisting more than 150 tech leaders and professionals to enhance their influence and thrive in their careers.

As an international, award-winning speaker, Aditya has been fortunate to grace over 50 stages worldwide and deliver 100+ captivating talks.

His personal journey of growth included investing in personal development programs, achieving success as a tech leader, and winning international speech competitions. Later, he invested in the coaching training program IPEC, launching his career as a professional coach and transforming the lives of numerous tech leaders.

SPEAKER TOPICS

How Not to Build a Rocket When Asked For a Bike
One of the top complaints business leaders have about their tech teams is that they often build what they want, rather than listening to the business's true needs. This results in budget overruns and burnt-out tech teams.
In this talk, Aditya presents a framework for improving communication. Through his talk, tech teams will learn valuable skills to better understand and communicate with the business teams.
As a result, tech and business teams will find themselves better aligned, avoiding budget overruns and more money in the pocket.

Future Proofing in the Era of ChatGPT
As OpenAI races ahead, the following questions are on everyone's mind:

1. How will the future landscape of technology evolve?

2. What skills will be in most demand?

3. Who gets to stay on the tech scene, and who is
   left behind?

Through the three-step evolution framework created by Aditya, learn how you can turn this technological revolution into an opportunity to stay ahead of the curve. Understand where the industry is headed and ensure you're future-proof by hiring the right talent or becoming the right talent!

Mastering Technical Presentations

Ineffectively delivered technical presentations can quickly become a snooze fest, leading to opportunity losses, especially in high-stakes business decisions.

In this talk, Aditya shares how to make your technical presentations memorable and engaging by using tools such as visuals, analogies, storytelling, emotional safety, and validation techniques.

By implementing these techniques, your technical presentations become more captivating and memorable, leading to increased business opportunities which, in turn, can lead to career growth for the presenter.
