

GARY KASPER

-with Identity Theft Solutions

"Gary is one of the more engaging and informed speakers that we have had speak at T-Werx. His sessions are always entertaining and the most highly rated."

-Jeff Kikel, CEO T-Werks

ABOUT GARY KASPER

After discovering he was a victim of identity theft, Gary Kasper founded Identity Theft Solutions with a clear mission: to educate and protect individuals, families, and businesses from one of today's most pervasive and silent crimes.

With more than 10 years of expertise in identity theft, fraud, and cybercrime, Gary has assisted over 900 individuals and 100 businesses through education, protection, and recovery. He is a keynote speaker and the published author of Identity Theft: The Road to Recovery.

SPEAKER TOPICS

Identity Theft 101: How to Protect Yourself

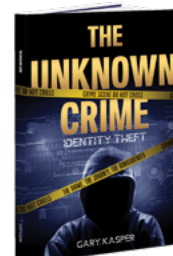

Learn how individuals become victims of identity theft and cybercrime, and what criminals do with stolen information. Understand the real consequences of ignoring early warning signs or failing to take action. This session also explains state and federal responses to identity theft and what protections are currently in place and learning how to protect yourself.

Identity Theft: The Effects on Small Business

Identity theft can seriously impact an employee's performance, yet many companies only focus on internal data theft. When an employee is dealing with identity fraud, their stress, productivity, and reliability can decline rapidly. This session outlines how identity theft affects company profit and what business owners can do to support and protect their workforce.

Identity Theft: Protection for Realtors and their Clients

In 2024, identity theft reached 1.1 million breaches, resulting in \$43 billion in reported Realtor losses. This workshop explains what Realtor Identity Theft is, how it occurs, and the four primary types affecting agents and brokers. You'll also learn why the industry should be concerned, how to help clients when fraud is discovered, and what steps can deter this growing threat.

ABOUT THE BOOK

Identity theft affects 1 in 4 people each year, yet many still think it won't happen to them. Gary Kasper, a survivor turned expert, shows why beliefs like "I'm not a target" or "my bank will fix it" leave people vulnerable. With data sold for as little as \$65 and most adults already exposed, the risk is real for both adults and children.

Gary's book, *The Unknown Crime, Identity Theft*, explains the dangers in simple terms and gives practical steps anyone can follow. Protect your identity and your peace of mind—**order online today.**
